Sure, will do that.. I'm highly pleased with your great assistance regarding the training courses arranged by the IIT Bombay team.. In this Global Epidemic situation when all educational institutions in India are closed for our safety, the initiative taken by your team for the students as well as other interested learners is very much appreciable.. They will be very benefited by your online (ICT) learning process at home.. I hope they will be able to utilise their valuable academic sessions with your resources..

I hope that the team of IIT Bombay will always be there for the best of the students..
