Prof. Anil Sahasrabudhe
Chairman, AICTE

Prof. Kannan Moudgalya
PI, Spoken Tutorial Project
IIT Bombay

Dear Head of MCA Department,

AICTE and IIT Bombay are committed to provide educational content that is useful from academic and employment perspectives. As a sequel to this vision, a self-learning training programme on Drupal has been prepared by IIT Bombay, which is now shared with all the MCA institutions in the first instance.

Please see enclosed a DVD that contains video tutorials, through which, your students can self-learn Drupal, a powerful framework to create and maintain web pages. These tutorials are available in English and in 11 of our languages: Assamese, Bengali, Gujarati, Hindi, Kannada, Malayalam, Marathi, Oriya, Tamil, Telugu and Urdu.

Learning Drupal will help improve the employment potential of your students in the general area of web development. Knowing Drupal will improve your faculty's consulting potential and could help increase industry-academia interaction.

Drupal Software and Spoken Tutorials may be copied and made available in all your computers, as both are open source. The file `Readme-Installation.pdf` in the accompanying DVD explains how to learn from Drupal Spoken Tutorials. To know about further help available from IIT Bombay and AICTE, and to give a feedback about this programme, please visit `http://spoken-tutorial.org/learn-Drupal`.

This instructional methodology on Drupal is brought to you by the *Spoken Tutorial* project, funded by the Ministry of Human Resource Development and the *National Virtual Library of India* project, funded by the Ministry of Culture.

With regards,
Yours sincerely,

Prof. Anil Sahasrabudhe

Prof. Kannan Moudgalya
