**Spoken Tutorial IIT Bombay working as Knowledge Partner with
Pandit Ravishankar Shukla University – Chhattisgarh State**

Objective

IIT Bombay, Spoken Tutorial program to work with Pandit Ravishankar Shukla University towards empowering all students pursuing higher education, UG and above - by providing a range of IT Skills training from General IT/ Computer Skills to Programming software to lucrative job oriented software training.

Perspective

Work has been going on this direction and the response from the ground is excellent in terms of acceptance and ability to do very well in the training. Till date, 48,855 students have been trained in Chhattisgarh. However, as compared to other states the progress in terms of covering all districts and colleges has been just low.

Background

Pandit Ravishankar Shukla University has started working actively and has issued a circular to all the colleges in August 2016 for implementing Spoken Tutorial Training Program.

Moving forward

We strongly believe active ownership role be played by Pandit Ravishankar Shukla University in terms of -

1. Circulars to all constituents / affiliated Institutions to University and the departments to be uploaded on Website every start of semester (Jan & June), with important links mentioned, with my and Ms. Neha Sharma's contact details as Chhattisgarh Training Coordinator & Training Promoter.
2. Key officer/ Central Coordinator from University to be identified who will interact with the Spoken Tutorial team state training coordinator.
3. Possible chances and ways of inclusion in syllabus. Spoken Tutorial can be included as an E- Resource wherever relevant.
4. Nominating 2-3 faculty from each department to organise training in their departments.
5. Identifying best 10-15 Colleges spread from each district as Nodal colleges. Nodal college will enroll the students in LibreOffice(Writer, Calc, impress) in this semester to get first exposure of 2 hour session for getting Certificates.
6. Encouraging and assigning 8-9 other affiliated colleges under each Nodal college.

Support from IIT Bombay team

1. Guidance from start and continuing for each and every college for life.
2. Send brochures etc. To be used during orientation time when colleges reopen.
3. Working to sensitise and train faculty too periodically.
