To

The Director/ Principal

All Affiliated Colleges, RGPV, Bhopal

Sir,

Rajiv Gandhi Prodyogiki Vishwavidyalaya, Bhopal in partnership with IIT Bombay is organising trainings/workshops under Spoken Tutorial Project of MHRD, Govt. of India. This is an NMEICT (www.sakshat.ac.in), MHRD, Govt.of India initiative to enhance the skill set of our students both UG and PG to promote and enable this ICT effort in the constituents.

Training is offered on Free and Open Source Software (FOSS), like Linux. FOSS are non-commercial as well for many FOSS, there is no commercial equivalent (C, Java etc.). Exotic and lucrative courses like Python, Perl, BASH, GIMP, Blender for multimedia, can be learned effectively through Spoken Tutorials. The courses are useful for both jobs (*Skill focus courses*) and academics (*Syllabus focus courses*). The program is funded by NMEICT- www.sakshat.ac.in -, MHRD, Govt. of India. Hence, the courses, training, day to day guidance and certificates are all completely Free of Cost.

To date, more than 9.5 lakh students have been trained nationwide. **In RGPV we have trained more than 20,000 students in the year of 2015**. FOSS in e-governance in many states are going for Open Source software, hence knowledge and skills in these will help with Govt. employment.

Principals are encouraged to introduce the program in their colleges by appointing a coordinator from the college who will work with ST team. The training is on campus and can be accommodated in Computer Lab hours.

The Coordinator will -

- Register/ create a login ID and become an authorized member of the program.
  Website: www.spoken-tutorial.org
- Plan the various training sessions for different departments, both in and outside the time-table and can start with Computer Science/IT.
- For courses suiting learning during computer practical hours, the Spoken Tutorial team will recommend the suitable Spoken Tutorial software course to help in selection.
- In the beginning of the semester, instructors will load the particular courses in the systems.

Expecting your kind co-operation & support.

18/12/15

Dr Jitendra Agrawal
Chief Coordinator, RGPV, MP
